IS STRIFE WITH JAPAN TO COME?

British Press is Paying Keen Attention to American-Japanese Relations.

CUMPLIMENTS THE PRESIDENT

Telegraph Says Country, Under His Leadership, is Rising to Political Greatness.

London, Dec. 19.-The British press editorially and through its correspondents in the United States, is paying keen attention to American-Japanese relations, and Ambassador Aoki's speech at the American Asiatic society. Secy. of Commerce and Labor Metcalf's report on the San Francisco dispute, and President Roosevelt's message on the school situation in California, are discussed with some concern.

The Tribune thinks President Roosevelt's firmness and tolerance have had their reward, while the weakness of M. Stolypin, the Russian premier, is a pledge for peace almost as valuable as President Roosesvelt's firmness and popularity.

"We may afford to dismiss both the Russian and the American scares from our minds," says the Tribune, "but nonetheless the recent rumors are far om agreeable or assuring."
The Tribune acquits Japan of any de-

sire to pick a quarrel, and thinks that the other powers, notably her ally. would have something to say on the subject, and that until it is educated or suppressed it is hardly to be expected that the Japanese will feel much of a sense of fraternity toward the white rivais in the Pacific. It is obvious, the paper deciares, that England, as an ally, may play a great part in moderating the resentment of the Japanese and checking their unwise ambitions and, above all, in helping Japan to achieve cordial recognition as a civilized power. If Japan feels she is frank ly treated as an equal by the old pow ers, the Tribune concludes, the temptashe is not respected may die in the iso-lation from which it sprang.

The Standard thinks that President

Roosevelt's second thoughts on the San Francisco school question, as revealed by his last message to Congres, may the best.

The Chronicle says:
"Let us hope that President Rooseelt, who seldom fails, will succeed,
yen here."

The Daily Telegraph, at the conclu-tion of a long editorial devoted to today's tercentennary, says:
"The United States, under President
Roosevelt's bold and steady leadership,

is rising to political greatness as rapidly as she is breaking all records of her own amazing past. The sequel of the voyage of their ships from the Thames, 300 years ago, represents not only the greatest achievement in nation but an example of stupendous building, but an example of stupendous results from small beginnings unique in the experience of mankind."

It will not purge, sicken, nor upset the stomach.

Neither is it like Castor Oil, Glycerine, or other Oily Laxatives that simply lubricate the Intestines for transit of the food stopped up in them at that particular time. * * *

The chief cause of Constipation and Indigestion is a weakness of the Muscles that contract the Intestines and Bowels. Cascarets are practically to the Bowel Muscles what a Massage and Cold Bath

Cascarets act like exercise.
